WESTCHESTER COUNTY.

MOUNT VERNON.

The Common Council on Tuesday night received an application from the Union Railway for more extensions in this city, and voted to give a public hearing on December 13. Permission is asked by the company to extend its line in First-st. in an easterly direction to Franklin and Fulton aves. and also to build through those streets to connect and also to build through those streets to connect with the line now operated in East Third-st. Another line is to begin at the intersection of North Fourth-ave, and Valentine-st, and go to First-st., and permission is also asked to build near the city line in North Fourth-ave, over private property, in order to form a connection between franchises in this city and one the company expects to get in Bronxville. There is likely to be opposition to all the routes asked for, but the strongest remonstrance will come from the property owners of Fulton and Franklin aves., which are among the finest improved streets in the city. The Aldermen adopted a resolution directing the Commissioner of finest improved streets in the city. As Andrews Adopted a resolution directing the Commissioner of Public Works to prepare plans for abolishing the grade crossing over the New-York and Harlem Railroad tracks at Oak-st. by building a bridge. Bronx Chapter, Daughters of the Revolution, petitioned the Aldermen to restore the name of White Plains Road to the thoroughfare now known in the city as West Lincoln-ave. The chapter called attention to the fact that General Washington, with the Continental Army, marched through this high-may on the way to the battle of White Plains, and gave this as an important reason for having the old name restored. Some action carrying out the wishes of the women will probably be taken. A resolution authorizing former Assessor Richard Seder to make a new map of the city for \$575 was finally adopted, after it had been discussed nearly an hour. Alderman Grant, Democrat, denounced the contract and characterized it as a political reward which Mayor Fiske and the Democratio majority were giving to Mr. Seder.

The Appellate Division of the Supreme Court has settled the controversy as to which are the official newspapers. It sustains the decision of Justice McLean that the designation by the Common Council of 'The News' and 'The Republican' was legal.

At a special meeting of the stockholders of the Hobby Bottling Company, located at Mount Vernon, it was resolved to increase its capital from \$50,000 to \$100,000, to consist of 1,000 shares of the par value of \$100 each. The certificate was filed at White Plains yesterday.

NEW-ROCHELLE.

The Common Council of New-Rochelle on Tuesday night by a vote of 14 to 1 decided to have competition in gas. A franchise in perpetuity was granted to the Westchester Gas and Coke Company, an offspring of the Philadelphia syndicate, which has just secured similar privileges in Mount Vernon, Pelham, East Chester and other towns and villages in Westchester County. By the terms of the franchise the new company is to charge not more than \$1.25 a thousand cubic feet, and it can make no excavations in the streets without first being authorized to do so by the Mayor. The repbeing authorized to do so by the Mayor. The representatives of the New-York Suburban Gas Company, which has been supplying the cities and villages of Westchester County with light for ten years, accuse the new corporation, which is backed by ex-Leutenant Governor Sheehan, of crowding into the field for the purpose of forcing them to a cale. One of them said yesterday that the new company, or rather the parent corporation, the Philadelphia syndicate, wants to buy their plant for \$1.50,000, but they want \$2.000,000. The new company is now building a plant in Mount Vernon, and it is said is slated to get the public lighting contract there, which is now held by its rival. The Aldermen also opened hids for \$12,000 in bonds for a new central fire headquarters, and for \$25,750 in certificates of indebtedness. The securities were awarded to Allen Sands & Co., of New-York. President Edward Maher of the Union Railway was present and made an application for several important extensions of its lines. A public hearing on the applications was ordered advertised for December 21. The action of Mayor Dillon in tearing up the tracks of the company in Centre-ave, when it neglected to make way for street improvements was commended by a resolution offered by Alderman Kress. Among the communications received was one from Solomon Levison, who is organizing a local electric light company. Mr. Levison asked that the awarding of the contract for public lighting be held back until he can confer with the Aldermen in regard to the new plan. His request was sgranted. resentatives of the New-York Suburban Gas Com-

YONKERS.

The Police Commissioners yesterday continued their investigation of the Department. The matter of the discharge of John Madden, a gambler, by Captain McLaughlin was taken up for consideration. The Commissioners stated that they believed the captain was guilty of an error of judgment, tion. The Commissioners stated that they believed the captain was guilty of an error of judgment, and they were evidently about to find that decision when Commissioner Henry Osterheld balked the proceeding by insisting that all the testimony be submitted to Fisher A. Baker, to have him render a legal opinion. The Commissioners made no reference to the conflicting statements of Captain McLaughlin and Roundsman George Cooley, neither did they pass any comment on the fact that Madden's gambling apparatus was returned to him. All those matters will be touched upon by Mr. Baker. His report will be received at the next meeting of the Board. McLaughlin admitted that there was nothing in the manual of the Department by which he had authority to discharge the gambler, but he declared that the book was not infallible, and that, as captain, he had the right to do what he did.

The plumbling thieves that have been wrecking houses all over Westchester County visited Yonkers last night. In the tenement houses of Joseph Canapi and George Walsh, at Nos. 127 and 128 School-st., they ripped off all the fixtures, causing the houses to be fooded with water in the morning when the tenants arose. The value of the stolen property and the duange done will amount to about \$2,000.

WHITE PLAINS.

At a special meeting of the voters of School District No. 10, town of Greenburg (Chatterton Hill), on Tuesday evening, 45 people rejected all of the three sites submitted for a new building, 16 favored one, and the other two received 3 votes each. Last spring \$15,000 in bonds were issued to pay for the school, but they were rejected, and since that time a feeling of resentment has been manifested against some of

SING SING.

State Railroad Inspector Barnes, of Albany, yes-terday inspected the Ossining Electric Railway. He was surprised, considering the billy route, that so few accidents had occurred. The principal recommendation he had to offer was a derailer, which enables a motorman, if he lesses control of his car, to throw it off the track by a turn of the lever.

WESTCHESTER IRON MINE ABANDONED.

SIXTY LABORERS HAD CLAIMS FOR \$1,500 PAY WHEN THE SUPERINTENDENT DISAPPEARED.

About sixty laborers are regretting the abandonment of an iron mine between East View and Unionville by the American Iron and Contracting Company, of No. 102 Fulton-st., Manhattan, and Company, of No. 162 Fulton-st., Manhattan, and the disappearance of J. Henry Woodruff, the superintendent. The company leased the property in which the mine is located from Free, Murray & Bliss, real estate dealers, of Tarrytown, and begun work there a month ago. Superintendent Woodruff was present daily until last week, when he failed to put in an appearance. None of the laborers had received a cent of pay since they started, and when Woodruff did not appear on Saturday all quit work. One of the employes attempted to attach the company's tools, but found that they were held by a chattel morigage, and it is said that the rail-road company is also a loser for carrying freight. One of the employes said yesterday that the company need the men about \$1.500. A member of the firm which leased the property said that unless the company lived up to its contract it would soon forfeit its lease, and that the mine would so leased to another company which could afford to work it. Since iron has advanced speculators have frequently examined the property, and the American company is believed to have opened it, thinking that it would yield large profits. In the opinion of residents the ore did not fulfil expectations and was consequently abandoned.

LAND FOR TWO MORE CEMETERIES.

Two more cemeteries will be added to Staten Island in the near future. A Manhattan corporation has just closed a deal, through Daniel T. Cornell, the Stapleton real estate dealer, for the purchase of about four hundred and fifty acres near Gifford's and Richmond, belonging to the Mersereaus, Crocherons, Coles, Simonsons, Moores and other oldtime Staten Island residents.

... NEW-YORK CITY.

The thirty-second anniversary of the execution of the Manchester martyrs, Allen, Larkin and O'Brien, will be commemorated this evening at Cooper Union by the members of the Irish societies of New-York City.

A conference of engineers and firemen will be held in this city on Monday in the hall of the Central Association of Steam Engineers of New-York City, No. 62 East Fourth-st. The call, which was issued yesterday, invites every association of engineers and firemen in the State to send two delegates to the conference.

A regular meeting of the New-York Universalist Club will be held on Monday at 7 p. m. at the St. Denis Hotel. The club will welcome two of its founders who have returned to the Empire State, Almon Gunnison, president of St. Lawrence University, and the Rev. Dr. A. J. Canfield.

Justice Fursman in the Criminal Branch of the Supreme Court yesterday afternoon fined John Mc-Clave, a lumber dealer at Twenty-second-st. and Eleventh-ave., and Simon Henry Herman Otten-berg, an owner of a factory at No. 218 East Twentythird-st., \$25 each for using soft coal. Both men pleaded guilty.

DECISION AGAINST THE TROLLEY.

JUSTICE BARNARD UPHOLDS THE TAXPAY-ERS AGAINST THE FLYNN SYNDICATE.

Justice Joseph F. Barnard, of the Supreme Court, at Poughkeepsie yesterday administered a severe rebuke to the New-York, Westchester and Connecticut Traction Company (the P. H. Flynn syndicate). Justice Barnard gave three decisions. One grants the injunction applied for by four taxpayers of East Chester Township and two grant the application of the Flynn syndicate's rival, the "Huckleberry" trolley company, restraining the former from molesting its tracks, either in East Chester or Scarsdale Township. The injunctions are the result of the traction company's attempt to seize the White Plains Road by working on Sunday, as told in The Tribune about a month ago. The plaintiffs are William J. Fisher, John Mon-aghan, Robert T. Bellew and Patrick J. White. Cameron & Hill, of No. 55 Pine-st., Manhattan, appeared for the taxpayers, and James C. Church, of Brooklyn, represented the syndicate. Frederick C. Cocheu, secretary of the syndicate, made a direct C. Cocheu, secretary of the syndicate, made a direct charge against the plaintiffs, asserting that the suits were brought in the interest of the rival Tarrytown road. The statements of Mr. Cocheu were denied, and the plaintiffs swore that they were opposed to the company because they believed that the construction of the trolley was illegal and would work irreparable injury to them.

The papers in all the suits were filed yesterday in the County Clerk'n office, at White Plains, and the cases were noticed for the December term of the Supreme Court. They will be tried before Supreme Court Justice Martin J. Keogh early next month, and trolley building in East Chester will be suspended for a time at least.

END OF GAS WAR LOOKED FOR.

BELIEF IN WALL STREET THAT NEGOTIATIONS HAVE BEEN RESUMED.

The general belief in Wall Street is that nego tlations have been resumed for a settlement of the local gas war, which has been in progress since May 1, and that these negotiations will this time be brought to a successful conclusion. Some time ago the Rockefeller interests, representing the Consolidated Gas Company, made an offer to Russell Sage, president of the Standard Gas Company, which was satisfactory to him, but nothing came of it, as the offer did not include the other stockholders of the Standard company, and Mr. Sage insisted that they should receive the same

Gilmartin, of New-York. A certificate of reduction of the capital stock of the New-England Telegraph Company of New-York City from \$28,000 to \$50,000 was filed to-day with the Secretary of State. The amount of stock ectually paid in is \$280,000, and the whole amount of that they are representatives of out-of-covarients. I have not yet accepted their offer. "Mr. Bage added that he had not heard of the and who have made me a liberal offer, naming a price higher than the market quotation. This offer applies not only to my own holdings, but also to those of any other stockholders who may desire to accept it, as I would not sell my stock unless the other stockholders were included in the offer. This proposition is not a renewal of the Rockefeller negotiations, but I do not know who these men are, except that they are representatives of out-oftown interests. I have not yet accepted their offer."

Mr. Bage added that he had not heard of the

rumored agreement of the gas compani-vance the price of gas before January 1.

FLINT'S FINE FURNITURE THE DIVAN FEATURE.

What room in these days of comfort, can do without its cushion-piled divan? We make it almost the prettiest feature.

The color scheme is the first point to consider. Seat and cushions must "brithers be" with each other and with all the room.

From our many divan designs, and multitude of pillows, dressed in all the colors of the artists palette, you may pick and arrange until your divan, with its cushions and backing, is an exquisite color harmony.

Come in even if only for idea.
